

## 3-Day Advanced Business Acceleration Federal Construction Training Workshop

What others have said about this workshop:

Marshall: “I know that I told you that the workshop was worth 2 or 3 times my investment, and then I got to thinking about it. The training you gave was probably worth a hundred times my investment as I am already bidding on a new generator contract in Mississippi and I would have never done that before going to your workshop. I knew some of the stuff you taught us, but you really filled in the gaps for all the things I didn’t know.”

Rusty: “Easily got our money’s worth, but what has really impressed me was the follow-on support. I never expected that the help you gave us in the few days following the workshop would be so much more valuable than what we learned at the 3 day event.”

Kevin: “You gave confirmation that this is a viable business opportunity unmatched in the history of our country. My dad was always telling me how great the opportunity was, but until the workshop, I had no idea how to successfully focus our business on federal spending.

Mike B: [this quote came at the end of the first day of the 3 day workshop]: “I’ll pay you \$10,000 right now if you promise not to tell anyone else what you taught us here. This information will provide anyone a huge competitive advantage and I can’t wait to see what you have for us tomorrow.” Mike called us the Tuesday following the workshop to tell us about a new federal construction contract he was bidding in a remote location in New Mexico.

Steve: “I love the new website [Members Only] and that I have access to all the proven templates, emails, letters, subcontract agreement form, safety plans – heck, there is so much here that just the time we will save not having to ‘reinvent the wheel’ is like having an Easy Button on my desk.”

Mike G: “I cannot imagine going after government contracts without this knowledge. Just the BidTrakker Reports alone will save us hours everyday just trying to find a job to bid on.”

Margie: “The Sandler part of the training was my favorite. I was trying to write as fast as Tom was talking because with what I learned, I will be very comfortable calling new clients using the concepts that Tom so eloquently conveyed.”
